

## B. Evidence of System Performance

In addition, the Project Team has verified that the system was installed and in good working order by demonstrating the following use cases in our presence. We, the client, accept the demonstration of these use cases from the computer/server of our choice as sufficient evidence of a fully-working system.

| Test Case Demonstrated   | Date Shown | Client Initials |
|--|------------|-----------------|
| Application scalable   | 4/29/20    | JL              |
| User testing survey designed and presented                                     | 4/24/20    | JL              |
| All high fidelity wireframes completed   | 3/27/20    | JL              |
| Client project proposal approved   | 3/27/20    | JL              |
| Application reflected design   | 4/15/20    | JL              |
| Communication with team enabled by channels such as Slack have been meaningful | 2/14/20    | JL              |
| Demonstrated exceptional effort and engagement throughout project              | 4/29/20    | JL              |
